EDUCATION

Rajeev Gandhi Memorial College of Engineering and Technology.

CSE(AI&ML) B.Tech

CGPA: 7.6

Nandyal
September 2022 - April 2026

Narayana Junior College

MPC Intermediate

Percentage: 80%

Nandyal
September 2020 - March 2022

Sri Chaitanya Em School

General Education School

Percentage: 99%

Nandyal
June 2019 - March 2020

EXPERIENCE

Dhee Coding Lab | Java Full-Stack Trainee

BTM Layout, Bengaluru, Karnataka, India. | May 2026 -

Present

- Learning core skills in Java, HTML, CSS, JavaScript, and SQL
- Working on real-time projects to gain practical Full-Stack Development experience
- Developing responsive and user-friendly web applications

SKILLS

Programming Languages: Java, Html, Css

Libraries/Frameworks: JavaScript

Tools / Platforms: Git, VS code

Databases: SQL

PROJECTS / OPEN-SOURCE

Human-Centric Robotic Control Using Speech Recognition and Vision-Based Object Detection

| [Link](#) Python, OpenCV, NumPy, Speech Recognition, Computer Vision, HSV Color Segmentation, AI/ML, Robotics

- Developed a robotic system that responds to human voice commands for automated control
- Implemented real-time object detection and tracking using camera-based visual processing
- Improved human-robot interaction by integrating speech control with intelligent object tracking systems

Travel Website(Working) | [Link](#)

HTML, CSS, JavaScript

Currently working on a responsive travel website focused on providing an engaging and user-friendly experience for exploring travel destinations and trip-related information. Developing interactive web pages, smooth navigation, and attractive user interface designs to improve frontend development skills and practical web design experience.

HONORS & AWARDS

- Pursuing Java Full-Stack Development training at Dhee Coding Lab with hands-on experience in real-time projects
- Developed an intelligent robotics project focused on voice-controlled automation and real-time object tracking
- Strengthened problem-solving and application development skills through practical implementation and project-based learning
